Precautions When Displaying a Still Image

A still image may cause permanent damage to the TV screen.

- Digital Ready TV: When you select the regular screen (4:3) mode to watch an SD-grade digital broadcast (and the set-top box output is 480p).
- Digital Ready TV: When you select the wide screen (16:9) mode to watch an SD-grade digital broadcast (and the set-top box output is 1080i).

Although digital broadcasting must be in the wide screen (16:9) HD format, broadcasters sometimes show programs made originally in the regular screen format (4:3) by converting the signals into digital form, in which case the left and right side edges of the screen are cropped.

Note : If the borders at the left, right and the center of the screen remain fixed for an extended period of time, the amount of light transmission will also remain varied and as a result the borders may leave traces.

Do not leave the screen in pause mode for extended periods of time as you may experience temporary or permanent image burn.

- Digital Ready TV: When the TV receives HD-grade signals (and the set-top box output is 1080i).

When you watch a digital HD-grade broadcast on a regular (4:3) TV with the screen size "16:9" or "Panorama" selected, you will be able to watch the program but the top and bottom edges of the screen will be cropped.

Note : If the borders at the top, bottom and the center of the screen remain fixed for an extended period of time, the amount of light transmission will also remain varied and as a result the borders may leave traces.
Do not leave the screen in pause mode for extended periods of time as you may experience temporary or permanent image burn.

- Integrated Digital TV (Wide-screen): When the TV receives SD-grade (regular) broadcasting signals (receives 480p regular signals).

- Digital Ready TV (wide-screen): digital TV: When the TV receives SD-grade (regular) broadcasting signals (with a set-top box).

- When you watch an analog (regular) broadcast on a wide-screen TV (with the 4:3 screen mode selected).

Although digital broadcasting must be in the wide screen (16:9) HD format, broadcasters sometimes show programs made originally in the regular screen format (4:3) by converting the signals into digital form, in which case the left and right side edges of the screen are cropped.

Note : If the borders at the left, right and the center of the screen remain fixed for an extended period of time, the amount of light transmission will also remain varied and as a result the borders may leave traces.

Do not leave the screen in pause mode for extended periods of time as you may experience temporary or permanent image burn.

- When you watch a DVD, CD or a video in wide screen (21:9) format on a wide-screen (16:9) TV.

- When you connect a computer or a game console to the TV and select the 4:3 screen mode.
If you connect a DVD player, computer or a game console to the wide-screen TV and watch a movie or play a game in regular (4:3) or wide (21:9) screen mode, the left and right side edges, or the top and bottom edges of the screen will be cropped.

Note : If the borders at the left, right and the center of the screen remain fixed for an extended period of time, the amount of light transmission will also remain varied and as a result the borders may leave traces.

Do not leave the screen in pause mode for extended periods of time as you may experience temporary or permanent image burn.

❸
☛ Whenever you connect an audio or video system to your set, ensure that all elements are switched off.
Refer to the documentation supplied with your equipment for detailed connection instructions and
associated safety precautions.

Viewing the Connection Panel

❶ *Connecting an Aerial or Cable Television Network (depending on the model)*

To view television channels correctly, a signal must be received by the set from one of the following sources:
- An outdoor aerial
- A cable television network
- A satellite network

❷ *Connecting a Set-Top Box, VCR or DVD*

- Connect the VCR, or DVD SCART cable to the SCART connector of the VCR, or DVD.
- If you wish to connect both the Set-Top Box and VCR (or DVD), you should connect the Set-Top Box to the VCR (or DVD) and connect the VCR (or DVD) to your set.

❸ *Connecting a Computer*

- Connect the 15 Pin D-SUB connector to the PC video connector.
- Connect the stereo audio cable to the "PC AUDIO IN" jack on the rear of your set and the other end to the "Audio Out" jack of the sound card on your computer.

➤ 15 Pin D-SUB connector

Pin	Separate H/V	Composite H/V
1	Red (R)	Red (R)
2	Green (G)	Green (G)
3	Blue (B)	Blue (B)
4	Grounding	Grounding
5	Grounding (DDC return)	Grounding (DDC return)
6	Grounding - Red (R)	Grounding - Red (R)
7	Grounding - Green (G)	Grounding - Green (G)

13	Horizontal Sync.	Horizontal/Vertical Sync.
14	Vertical Sync.	Not used
15	DDC - SCL (Clock)	DDC - SCL (Clock)

Viewing the Connection Panel

❹ *Connecting External A/V Devices*

- Connect RCA or S-VIDEO cables to an appropriate external A/V device such as a VCR, DVD or Camcorder.
- Connect RCA audio cables to "(MONO)L-AUDIO-R" on the rear of your set and the other ends to corresponding audio out connectors on the A/V device.

❺ *Kensington Slot*

- This television has been designed to apply a burglarproof lock. (See page 51)

Viewing Pictures From External Sources

Once you have connected up your various audio and video systems, you can view the different sources by selecting the appropriate input.

1   Check that all the necessary connections have been made (refer to pages **6** and **7** for further details).

2   ◆ Press the **TV** button to choose TV mode.

     ◆ Press the **SOURCE** button to choose Video mode. The input sources are displayed in the following order: AV1 - AV2 - S-Video - PC.

Inserting the Batteries in the Remote Control

You must insert or replace the batteries in the remote control when you:

◆ *Purchase your set*
◆ *Find that the remote control is no longer operating correctly*

1 Remove the cover on the rear of the remote control by pressing the symbol downwards and then pulling firmly to remove it.

2 Install two **AAA** size batteries.
◆ **+** on the battery against **+** on the remote control
◆ **–** on the battery against **–** on the remote control

3 Replace the cover by aligning it with the base of the remote control and pressing it back into place.

➢ Do not mix battery types, i.e. alkaline and manganese.

SAMSUNG
Switching On and Off

The mains lead is attached to the rear of your set.

1   Plug the mains lead into an appropriate socket.

       <u>Result</u>:   When the power cord is plugged in, the LED turns red.

2   Press the ⏻ **POWER** button to switch on.

3   To switch off, press the ⏻ **POWER** button again.

Placing in Standby Mode

Your set can be placed in Standby mode in order to reduce the power consumption.

The Standby mode can be useful when you wish to interrupt viewing temporarily (during a meal, for example).

1   Press the ⏻ **POWER** button.

2   To switch back on, simply press the ⏻ **POWER** button again, a numeric button, or channel ∨ or ∧ button.

➤   Do not leave your set in Standby mode for long periods of time (when you are away on holiday, for example).
Turn off by pressing the ⏻ **POWER** button.
It is best to unplug the set from the mains and aerial.

Becoming Familiar with the Remote Control

The remote control is used mainly to:

◆ *Change channels and adjust the volume*
◆ *Set up your set using the on-screen menu system*

The following table presents the most frequently used buttons and their functions.

Button	Viewing Function	Menu Function
P ∧	Used to display the next stored channel.	-
P ∨	Used to display the previous stored channel.	-
PRE-CH ◉	Used to switch repeatedly between the last two channels displayed. (**PRE-CH**; Previous Channel)	
⓪ - ⑨	Used to display the corresponding channels.	
-/--	Used to select a channel numbered ten or over. Press this button, and the "--" symbol is displayed. Enter the two-digit channel number.	
◢ +	Used to increase the volume.	-
◢ −	Used to decrease the volume.	-
MUTE ⋈	Used to switch the sound off temporarily. ➣ To turn the sound back on, press this button again, or press the **+** or **-** button.	
MENU ▥	Used to display the on-screen menu system.	Used to return to the previous menu or normal viewing.
EXIT →▯	Used to exit the menu system and return directly to normal viewing.	
◉	▲▼ Used to move among the menu items. ► Used to select a menu item or increase the value of the selected item. ◄ Used to return to the previous menu item or decrease the value of the selected item.

Enjoy your viewing

When the set is initially powered ON, you are automatically presented with a series of basic customer settings.
The following settings are available.

1   If the set is in standby mode, press the ⏻ **POWER** button on the remote control.

    <u>Result</u>:   The message **Plug & Play** is displayed.
            It appears for a little while, and then the **Language** menu is automatically displayed.

2   Select the appropriate **Language** by pressing the ▲ or ▼ button.

    ➤   The available languages are listed.
       You can choose one of **12** languages.

3   Press the **ENTER** ↵ button to confirm your choice.

    <u>Result</u>:   The message **"Check antenna input."** is displayed with **OK** selected.

4   Press the **ENTER** ↵ button.

    <u>Result</u>:   The country menu is displayed:
            Belgium - Germany - Spain - France - Italy - Netherlands - Switzerland - Sweden - United Kingdom - Eastern Europe - Others

5   Select your **Country** by pressing the ▲ or ▼ button.
    Press the **ENTER** ↵ button.

    <u>Result</u>:   The **Auto Store** menu is displayed.

6   Press the **ENTER** ↵ button.

    <u>Result</u>:   The channel search will start and end automatically.

7   Press the **ENTER** ↵ button.
    Select the **Hour** or **Minute** by pressing the ◄ or ► button.
    Set the **Hour** or **Minute** by pressing the ▲ or ▼ button.
    (Refer to "**Setting the Clock**" on page **30**)

8   Press the **MENU** button to confirm your setting.

    <u>Result</u>:   The message "**Enjoy your viewing**" is displayed, and then the channel which has been stored will be activated.

9   Press the **EXIT** button to exit.

You can choose TV mode or change to an input source connected to the TV set. Use this button to choose an input source that you would like to watch.

1   Press the **MENU** button.

      Result: The main menu is displayed.

2   Press the **ENTER** ↵ button to select the **Input**.

      Result: The options available in the **Input** group are displayed.

3   Press the **ENTER** ↵ button.

      Result: The **Source List** is selected.

**4**   Press the ▲ or ▼ button to move to the input source that you wish to choose.
     Press the **ENTER** ↵ button.

      Result: The input source changes to the one you have chosen.

Editing an Input Source Name

Entering the names of the input source devices connected to the input ports on the TV set allows you to find and choose an input source that you would like to watch in a quick and convenient manner.

1 Press the **MENU** button.

Result: The main menu is displayed.

2 Press the **ENTER** button to select the **Input**.

Result: The options available in the **Input** group are displayed.

3 Press the ▲ or ▼ button to select the **Edit Name**.
    Press the **ENTER** button.

**4** Press the ▲ or ▼ button to move to the input source that you wish to edit.
    Press the **ENTER** button.
Result: The following options are available

5 Select the required device by pressing the ▲ or ▼ repeatedly.

Result: The following options are available:
         ---- - VCR - DVD - Cable STB - HD STB - Satellite STB - AV Receiver - DVD Receiver - Game - Camcorder - DVD   Combo - DHR - PC.

6 When you are satisfied with your choice, press the **EXIT** button to return to normal viewing.

When you start using your set for the first time, you must select the language which will be used for displaying menus and indicators.

1 Press the **MENU** button.

Result: The main menu is displayed.

2 Press the ▲ or ▼ button to select the **Setup**.

Result: The options available in the **Setup** group are displayed.

3 Press the **ENTER** button.

4 Press the ▲ or ▼ button to select the **Language**.
Press the **ENTER** button.

5 Select a particular **Language** by pressing the ▲ or ▼ button repeatedly.

6 When you are satisfied with your choice, press the **EXIT** button to return to normal viewing.

Storing Channels Automatically

You can scan for the frequency ranges available to you (and availability depends on your country). Automatically allocated programme numbers may not correspond to actual or desired programme numbers. However you can sort numbers manually and clear any channels you do not wish to watch.

1   Press the **MENU** button.

     <u>Result</u>:   The main menu is displayed.

2   Press the ▲ or ▼ button to select the **Channel**.

     <u>Result</u>:   The options available in the **Channel** group are displayed.

3   Press the **ENTER** button.

4   Press the ▲ or ▼ button to select **Auto Store**.
       Press the **ENTER** button.

     <u>Result</u>:   The **Start** is selected.

5   Press the **ENTER** button to search the channels.
       The sub menu is changed from **Start** to **Stop** with channel search started.
     <u>Result</u>:   The search will end automatically.
               Channels are sorted and stored in an order which reflects their position in the frequency range, (with lowest first and highest last). The programme originally selected is then displayed.
    ➤   To stop the search before it has finished, press the **ENTER** button to search the channels.

6   When the channels have been stored, you can:
     ◆   Add or delete the channels (refer to page 22)
     ◆   Sort them in the order required (refer to page 23)
     ◆   Assign a name to the stored channels (refer to page 24)

7   Press the **EXIT** button to exit.

You can exclude any channels of your choice from the channels you have scanned. When you scan through the stored channels, those you have chosen to skip are not displayed.

All channels that you do not specifically choose to skip are displayed during scanning.

1   Press the **MENU** button.

    Result: The main menu is displayed.

2   Press the ▲ or ▼ button to select the **Channel**.

    Result: The options available in the **Channel** group are displayed.

3   Press the **ENTER**↵ button.

4   Press the ▲ or ▼ button to select **Add/Delete**.
     Press the **ENTER**↵ button.

    Result: The state of the current channel is displayed.

5   Press the ⌃ or ⌄ button to select the channel that you wish to **Add** or **Delete**.

    Result: If the channel that you wish to edit is not in memory, Add is selected and displayed.
          Otherwise, if the channel that you wish to edit is in memory, Delete is selected and displayed.

6   Press the **ENTER**↵ button to **Add** or **Delete** the channel.

7   Repeat Step **5** for each channel to be added or erased.

8   Press the **EXIT** button to exit.

Sorting the Stored Channels

You can exchange the numbers of two channels, in order to:

◆ *Modify the numeric order in which the channels have been automatically stored.*

◆ *Assign easily remembered numbers to the channels that you watch most often.*

1   Press the **MENU** button.

  <u>Result</u>:   The main menu is displayed.

2   Press the ▲ or ▼ button to select the **Channel**.

  <u>Result</u>:   The options available in the **Channel** group are displayed.

3   Press the **ENTER** button.

4   Press the ▲ or ▼ button to select **Sort**.
  Press the **ENTER** button.

  <u>Result</u>:   The current **Prog.**, **Channel** and **Name** are displayed.

5   Select the channel number that you wish to change by pressing the ▲ or ▼ button repeatedly.
  Press the **ENTER** button.

  <u>Result</u>:   The selected **Channel** and **Name** are moved to the right side.

6   Press the ▲ or ▼ button to move to the position which you would like to change and then press the **ENTER** button.

  <u>Result</u>:   The selected channel is exchanged with the one previously stored to the chosen number.

7   Repeat step **5** to **6** for another channel to sort again.

8   Press the **EXIT** button to exit.

If channel name information is broadcast when you store the channels either manually or automatically, the names are assigned to the channels directly. You can however change these names or assign new names as required.

1 Press the **MENU** button.

Result: The main menu is displayed.

2 Press the ▲ or ▼ button to select the **Channel**.

Result: The options available in the **Channel** group are displayed.

3 Press the **ENTER**⏎ button.

4 Press the ▲ or ▼ button to select the **Name**.
Press the **ENTER**⏎ button.

Result: The current **Prog., Channel** and **Name** are displayed.

5 If necessary, select the channel to be assigned to a new **Name** by pressing the ▲ or ▼ button.
Press the **ENTER**⏎ button.

Result: The selection bar is displayed around the name box.

6

To...	Then...
Select a letter, number or symbol	Press the ▲ or ▼ button
Move on to the next letter	Press the ▶ button
Move back to the previous letter	Press the ◀ button
Confirm the name	Press the **ENTER**⏎ button

➢ The characters available are :
 ◆ Letters of the alphabet (A~Z)
 ◆ Numbers (0~9)
 ◆ Special characters (space, _)

7 Repeat Steps **5** to **6** for each channel to be assigned to a new name.

8 When you have finished entering the name, press the **ENTER**⏎ button to confirm the name.

Changing the Picture Standard

You can select the type of picture which best corresponds to your viewing requirements.

1   Press the **MENU** button.

Result: The main menu is displayed.

2   Press the ▲ or ▼ button to select the **Picture**.

Result: The options available in the **Picture** group are displayed.

3   Press the **ENTER** button.
Result: The **Mode** is selected.

4   Press the **ENTER** button.

5   Select the required picture effect by pressing the ▲ or ▼ button repeatedly.
Press the **ENTER** button.

Result: The following picture effects are available:
Dynamic - Standard - Movie - Custom

6   Press the **EXIT** button to exit.

➤   You can also set these options simply by pressing the **P.MODE** (Picture Mode) button.

Displaying Information

You can view the setting status of the selected source by pressing the "INFO" button on the remote control.
The information displayed varies according to the selected source.

P 1	Mono
Picture	Standard
Sound	Standard
Clock	12 : 00
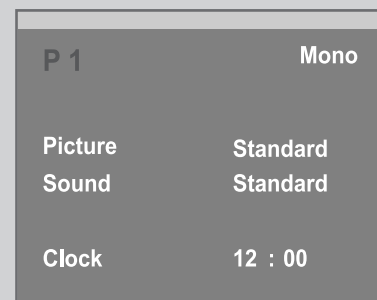

Teletext Feature

Most television channels provide written information services via teletext.
Information provided includes:

- ◆ *Television programme times*
- ◆ *News bulletins and weather forecasts*
- ◆ *Sports results*
- ◆ *Travel information*

This information is divided into numbered pages (see diagram).

Part	Contents
A	Selected page number.
B	Broadcasting channel identity.
C	Current page number or search indicators.
D	Date and time.
E	Text.
F	Status information. FASTEXT information.

➤ Teletext information is often divided between several pages displayed in sequence, which can be accessed by:
- ◆ Entering the page number
- ◆ Selecting a title in a list
- ◆ Selecting a coloured heading (FASTEXT system)

Displaying the Teletext Information

You can display Teletext information at any time on your set.

☞ For Teletext information to be displayed correctly, channel reception must be stable; otherwise:

◆ Information may be missing

◆ Some pages may not be displayed

1 Select the channel providing the Teletext service using the ∧ or ∨ button.

2 Press the **TTX/MIX** button to activate the teletext mode.

Result: The contents page is displayed. It can be redisplayed at any time by pressing the ▤ (index) button.

3 If you wish to display the actual broadcast at the same time as the teletext page, press the **TTX/MIX** button again.

**4** Press the **TV(☐)** button again to exit the teletext display.

Selecting a Page by Number

You can enter the page number directly by pressing the numeric buttons on the remote control.

1 Enter the three-digit page number given in the content by pressing the corresponding numeric buttons.

> <u>Result</u>: The current page counter is incremented and the page is then displayed.

2 If the selected page is linked with several secondary pages, the secondary pages are displayed in sequence. To freeze the display on a given page, press the ▤ (hold) button. Press the ▤ (hold) button again to resume.

Using the various display options:

To display...	Press the...
◆ Hidden text (answers to quiz games, for example)	▤? (reveal)
◆ The normal screen	▤? (reveal) again
◆ A secondary page, by entering its 4-digit number	▤ (subpage)
◆ The next page	▤ (page up)
◆ The previous page	▤ (page down)
◆ Double-size letters in the: • Upper half of the screen • Lower half of the screen	▤ (size) • Once • Twice
◆ Normal screen	• Three times

Using FLOF to Select a Page

The various topics included in the teletext pages are colour-coded, and can be selected by pressing the coloured buttons on the remote control.

1   Display the teletext contents page by pressing the **TTX/MIX** button.

2   Press the coloured button corresponding to the topic that you wish to select; the available topics are given on the status line.

        <u>Result</u>:   The page is displayed with other coloured information that can be selected in the same way.

3   To display the previous or next page, press the corresponding coloured button.

4   To display the subpage, see the following steps.

        ◆   Press the ▤ (subpage) button.

        <u>Result</u>:   The available subpages appear.

        ◆   Select the required subpage.
           Subpages can be scrolled by using the ▣ or ▣ button.

Storing Teletext Pages

You can store up to four teletext pages to display them later at leisure.

1   Select the LIST mode using the ▤ (LIST/FLOF) button.

        <u>Result</u>:   Four 3-digit numbers are displayed in different colours.

        ➢   The ▤ (LIST/FLOF) button is used to switch between the LIST and FLOF modes.

2   Press the coloured button corresponding to the page that will be replaced.

3   Enter the new page number using the numeric buttons.

4   Repeat steps **2** and **3** for each page to be stored, using a different coloured button each time.

5   Press the ▤ (store) button until the corresponding blocks blink.

Setting Up Your PC Software (Based on Windows XP)

The Windows display-settings for a typical computer are shown below. The actual screens on your PC will probably be different, depending upon your particular version of Windows and your particular video card. However, even if your actual screens look different, the same basic set-up information will apply in almost all cases. (If not, contact your computer manufacturer or Samsung Dealer.)

1 First, click on "**Control Panel**" on the Windows start menu.

2 When the control panel window appears, click on "**Appearance and Themes**" and a display dialog-box will appear.

3 When the control panel window appears, click on "**Display**" and a display dialog-box will appear.

4 Navigate to the "**Settings**" tab on the display dialog-box.

The correct size setting (resolution)
- refer to page 47, 49

If a vertical-frequency option exists on your display settings dialog box, the correct value is "**60**" or "**60 Hz**". Otherwise, just click "**OK**" and exit the dialog box.
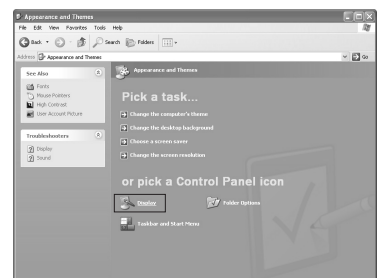

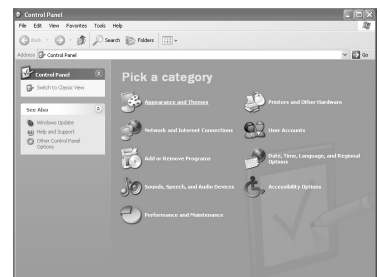

Coarse and Fine Tuning of the Image

➣ Preset to PC mode by pressing the **SOURCE** button on the remote control .

1 Press the **MENU** button.

   Result: The main menu is displayed.

2 Press the ▲ or ▼ button to select **Setup**.

   Result: The options available in the **Setup** group are displayed.

3 Press the **ENTER** button.

4 Press the ▲ or ▼ button to select **PC**.
   Press the **ENTER** button.

   Result: The options available in the **PC** menu
   are displayed.

**5** Press the **ENTER** button.

   Result: The **Image Lock** menu is selected.

6 Press the ▲ or ▼ button to select **Coarse** or **Fine**.
   Press the **ENTER** button.

   Result: The horizontal bar is displayed.

7 Press the ◄ or ► button to adjust the screen quality.
   Vertical stripes may appear or the picture may become blurry.

8 When you are satisfied with the settings, press the **MENU** button
   to return to the previous menu or press the **EXIT** button to return to
   normal viewing.

You can change the screen background colour according to your preference.

1　Press the **MENU** button.

　　Result:　　The main menu is displayed.

2　Press the ▲ or ▼ button to select the **Picture**.

　　Result:　　The options available in the **Picture** group are displayed.

3　Press the **ENTER**⏎ button.

4　Press the ▲ or ▼ button to select the **Colour Tone**. Press the **ENTER**⏎ button.

　　Result:　　The following options are available:
　　　　　　Cool - Normal - Warm - Custom

5　When you are satisfied with your choice, press the **EXIT** button to return to normal viewing.

Customizing the Colour

1 Press the **MENU** button.

Result: The main menu is displayed.

2 Press the ▲ or ▼ button to select the **Picture**.

Result: The options available in the **Picture** group are displayed.
3 Press the **ENTER** button.

4 Press the ▲ or ▼ button to select the **Colour Control**.
Press the **ENTER** button.

5 Select the option (**Red, Green, Blue**) to be adjusted by pressing
the ▲ or ▼ button.
Press the **ENTER** button.

Result: The horizontal bar is displayed.

6 Press the ◄ or ► button to reach the required setting.

7 When you are satisfied with the setting, press the **MENU** button
to return to the previous menu or press the **EXIT** button to return to
normal viewing.

Troubleshooting: Before Contacting Service Personnel

Before contacting Samsung after-sales service, perform the following simple checks.
If you cannot solve the problem using the instructions below, note the model and serial number of
your set and contact your local dealer.

No sound or picture.	◆ Check that the mains lead has been connected to a wall socket. ◆ Check that you have pressed the ⏻**POWER** button. ◆ Check the picture contrast and brightness settings. ◆ Check the volume.
Normal picture but no sound.	◆ Check the volume. ◆ Check whether the **MUTE** ⤫ button has been pressed on the remote control.
No picture or black and white picture.	◆ Adjust the colour settings. ◆ Check that the broadcast system selected is correct.
Sound and picture interference.	◆ Try to identify the electrical appliance that is affecting the set and move it further away. ◆ Plug your set into a different mains socket.
Blurred or snowy picture, distorted sound.	◆ Check the direction, location and connections of your aerial. This interference is often due to the use of an indoor aerial.
Remote control malfunctions.	◆ Replace the remote control batteries. ◆ Clean the upper edge of the remote control (transmission window). ◆ Check the battery terminals.
"Check signal cable" message is displayed.	◆ Check that the signal cable is firmly connected to the PC. ◆ Check that the PC is turned on.
In PC mode, "Mode Not Supported" message is displayed.	◆ Check the maximum resolution and the frequency of the video adapter. ◆ Compare these values with the data in the Display Modes. (refer to page 49)
In PC mode, horizontal or vertical bars appear to flicker, jitter or shimmer on the image.	◆ Adjust the Coarse or Fine function. (refer to page 39)
In PC mode, the screen is black and the power indicator light is steady amber or blinks every 0.5 or 1 seconds.	◆ The TV is using its power management system. ◆ Move the computer's mouse or press any key on the keyboard.

Troubleshooting: Before Contacting Service Personnel

| In PC mode, the image is not stable and may appear to vibrate. | ◆ Check that the display resolution and frequency from your computer or video board is an available mode for your set. On your computer check: Control Panel, Display, Settings.
◆ If the setting is not correct, use your computer utility programme to change the display settings. |

➤ Your set supports multiscan display functions within the following frequency domain:

	15"(LE15S51B)	20"(LE20S51B)
Horizontal frequency(kHz)	30~69	28~33
Vertical frequency(Hz)	50~75	50~70
Maximum refresh rate (at 75Hz)	1024x768	640x480

| In PC mode, the image is not centred on the screen. | ◆ Adjust the horizontal and vertical position. |

TFT LCD panel manufactured by using advanced semiconductor technology with precision of 1ppm(one millionth) above is used for this product. This is not from bad quality and you can use it without uneasiness.
For example, the number of TFT LCD sub pixels: LE15S51B - 2,359,296, LE20S51B - 1,921,600

Power Saver

This set has a built-in power management system called PowerSaver. This system saves energy by switching your set into a low-power mode when it has not been used for a certain period of time. The available modes are "On", "Standby", "Sleep", and "Deep Sleep". PowerSaver operates with a VESA DPMS compliant video card installed in your computer. You use a software utility installed on your computer to set up this feature.

State	Normal Operation	Power-Saving Function mode (EPA/NUTEK)
Horizontal Sync	Active	Inactive
Vertical Sync	Active	Inactive
Power Indicator	Off	Red, Blinking (1 sec interval)
Power Consumption	15" 40W, 20" 55W	Less than 3W

➤ *This set automatically returns to normal operation when horizontal and vertical sync are restored.*
This occurs when you move the computer's mouse or press any key on the keyboard.

Display Modes

If the signal from the system equals the standard signal mode, the screen is adjusted automatically. If the signal from the system doesn't equal the standard signal mode, adjust the mode by referring to your Videocard user guide; otherwise there may be no video. For the display modes listed below, the screen image has been optimized during manufacture.

Mode(PC)		Resolution	Horizontal Frequency (kHz)	Vertical Frequency (Hz)	Pixel Clock Frequency (MHz)	Sync Polarity (H/V)

Retractable Stand

Note: The maximum tilt angle is 13 degrees in the backward direction.
Please do not tilt the TV outside the specified range. Using excessive force to tilt the TV may cause permanent damage to the mechanical part of the stand.

Using Your TV in Another Country

If you plan to take your TV with you to a foreign country, please be aware of the different television systems that are in use around the world.

A TV designed for one system may not work properly with another system due to differences in the TV channel frequencies.

Using the Anti-Theft Kensington Lock

Cable

Figure 2

Figure 1

<Optional>

The Kensington lock is a device used
to physically fix the system when using
it in a public place. The locking device
has to be purchased separately.
The appearance and locking method
may differ from the illustration
depending on the manufacturer.
Please refer to the manual provided
with the Kensington lock for proper use.

1. Insert the locking device into the Kensington slot on the LCD TV (Figure 1),
   and turn it in the locking direction (Figure 2).

2. Connect the Kensington lock cable.

3. Fix the Kensington lock to a desk or a heavy stationary object.

Installing VESA compliant mounting devices

<1>   <2>   **Mounting pad**
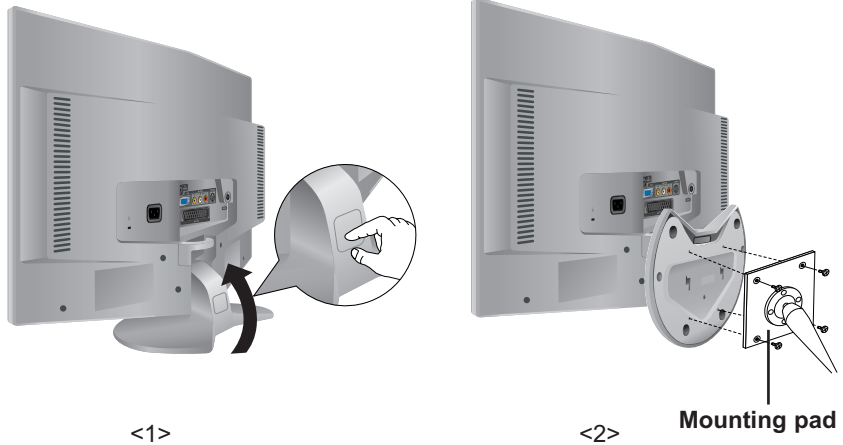

<1> Fold the stand pressing the button on the back of the stand.

<2> Align the mounting interface pad with the holes in the stand bottom and secure it with the four screws that come with the arm-type base, wall mount hanger or other bases.
Installing the Wall Mount Kit

Note : This installation is to be used when attaching the wall mount to a concrete wall.
When attaching to other building materials, please contact your nearest dealer.

Components

Please use provided components or parts to install the Wall Mount Kit.
Bracket	Anchors : 3EA	Screws : 3EA	Installation Guide
How to assemble the Wall Mount Kit

1   ❶ Mark the location of hole on the wall using installation guide.

❷ Make over 35mm- depth- hole on the marked location using 5.0-diameter drill.

❸ Fix anchors on each hole on the wall.

❹ Connect bracket to the wall with screws after fitting anchors into the bracket holes.

Note : If the bracket is not firmly fixed to the wall, LCD TV can fall off.
2   You may use LCD TV right after fixing it to the wall since stand is wrapped already turned over as shown in the picture below.

3   When using LCD TV in stand-based form, place the product on a cushion or other soft materials. Then turn over stand following the arrow direction below only after pressing button on the connected part where LCD TV is attached to stand.
(Turn over stand in the opposite direction after pressing button when using LCD TV in wall-mounted form as well.)
Installing the Wall Mount Kit

4 Adjust LCD TV to the hook on the bracket and move in the direction of the arrow(Left) so that LCD TV can be completely fixed to the bracket.
When bracket is assembled on the wall　　　How to hang LCD TV up on a hook　　　When installation is completed

5 Remove Installation Guide after completing setup of monitor on the wall.

6 Push the LCD TV up and shift to the right to detach it from bracket.
When moving or transferring to other areas, reverse No. 4 procedure so as to disconnect LCD TV with ease.
How to adjust an angle

(1) Angle adjustment section of general stand-based LCD TV

(2) Angle abjustment section while converting the form (1->3, 3->1)
(3) Angle adjustment section of wall-mounted LCD TV

13.0°

0~13°

13°~80°

80°~90°

10.0°

❶ Picture(1) shows the adjustment angle(0°~ 13°)when you use LCD TV in its general form(stand-based LCD TV). Excessive tilting can turn LCD TV over which might cause damage to LCD TV.

❷ Picture(2) shows the adjustment angle(13°~ 80°)when you convert stand-based LCD TV into wall-mounted one.

❸ Picture(3) shows the adjustment angle(0°~ 10°)when you use wall-mounted LCD TV after fixing it to wall.

Note : Picture (2) shows the angle adjustment section while LCD TV is being converted from stand-based one to wall-mounted one or vice versa.
  - Click" sound indicates section change from 1 to 2 or 3 to 2(1->2, 3->2).

‒ AFTER SALES SERVICE

‒ Do not hesitate to contact your retailer or service agent if a change in the performance of your product indicates that a faulty condition may be present.
